Cadiz Serpentino
Heat Storage with Natural Soapstone

The Cadiz Serpentino combines ultra-low wood consumption with an efficient clean burn. The Soapstone has excellent heatbank quality and is the most efficient natural stone to absorb and hold heat for a long amount of time. Natural convection will move warmth efficiently throughout your house, whilst the radiant heat of the soapstone gives you extra warmth for many hours even when the fire has gone out, making the need to burn overnight in many cases unnecessary.

- 33cm Logs
- Soapstone Finish & Optional Heat Bank
- Easy to remove ash tray
- Optional external air intake

Heating Capacity	Up to 240m²
Efficiency	Aus 67% / EU 82%
Emissions	0.8g/kg
Wood Usage	2.1kg/hr
Weight	242kg
H/W/D	1481/575/494

Heat Bank	20kg Optional
Ember Retention	8hr+
With Heat Bank	9hr+
Min Flue Length	**4m** *From Spigot*
Colour	

National Certificate of Compliance No; AHHA22-017
